

Client Name: [client name]

Workout #: Phase 2: Anaerobic Intervals

Start Date: [start date]

- Notes:**
- Foam rolling and mobility exercises are optional.
 - Begin with 3-5 minutes of low intensity movement (e.g. walking, jogging, cycling, bodyweight squats etc.)
 - Choose a cardiovascular exercise or machine of your choice (e.g. running, cross-trainer, rower, bike etc.) or large, full body exercise (e.g. squats, kettlebell swings, mountain climbers etc.)
 - Perform 60 seconds of your chosen active at a challenging intensity whilst still retaining good quality movement and technique.
 - Then rest completely for 60 seconds or move at a very light intensity.
 - Repeat for 4 rounds totaling 8 minutes.
 - Take a 'half-time' rest break of up to 5 minutes.
 - Repeat for another 4 rounds totaling 8 minutes.

Foam Rolling	Stretch	Mobility	Cool Down
